

Robinson Grove Estate - Landscaping and Reticulation Package

Homeowner Requirements – Important Notes

Prior to commencing Landscaping works, the Landowner is required to:

- Install a 90mm PVC duct (not more than 300mm depth) under the paving, driveway and walls. This is required for installation of irrigation pipes and cables for the irrigation controller and the locations must be clearly marked. Where there is paving up to or around the meter box, it is recommended that a small duct with a draw string is installed for cable connection.
- Ensure that the site is clean, free from rubbish, rubble and weed and graded to final levels 50mm below surrounding hard surfaces and maintain this appearance until the landscape installation date.

This Landscaping Voucher entitles the homeowner to:

One consultation between the homeowner and the landscape contractor. (Please note that onsite consultations are available Monday to Friday between the hours of 7.30am and 2.30pm)
